## TELEGRAPHIC TICKINGS.

**The Gentle Zephyrs on a Bender in the East.**

New York [Notes.—The coming Cabinet—San Francisco News—The Assassins' Hopes—Other News.

Associated Press Dispatches.]

Boston, Jan. 27.—A heavy gale to-day from the west-southwest did much damage in portions of Maine, Massachusetts, New Hampshire and Vermont. It was very severe at Pittsfield, Mass. The Congregational Church steeple was blown down, another steeple was badly damaged, and much loss was occasioned by the tearing of trees and fences and the demolition of chimneys, signs, etc. Three persons were injured.—Mr. Godfrey probably fatally.

DESTRUCTION OF PROPERTY.

At Adams and Cheshire, thousands of dollars worth of property was destroyed. At North Adams a one-story brick building 800 feet long belonging to the Zeylorite Works, and which contained some valuable machinery, was blown entirely from its foundation, the bricks scattering in all directions. The walls of a two-story brick building belonging to the same company is so damaged for 300 feet in length that it will have to be reduced and new roofs laid on the whole works. The works are owned by New York and Boston parties and the loss is said to reach \$10,000. The steam engine house at Cheshire and an ice house attached to the property of the Housatonic Ice company was blown down with damage amounting to \$20,000. The covered highway bridge at Wells Ferry was

COMPLETELY DEMOLISHED.

At Newburyport about 100 feet of tin roof with timbers attached blew off the Grand Army Hall and crashed in the L of the dwelling house. At Nashua, N. H., a four-story shoe factory building was

RAISED TWO FEET

out of perpendicular and caused two hundred workmen in it to stampede. Julian Clark jumped from a second story window and is thought to be fatally hurt. Others were bruised and frightened. At Rochester, N. H., the large exhibition building of the Rochester Fair Association was overturned. It was filled with carriages, all of which were more or less injured. At Lewiston, Maine, four chimneys were blown down, plate glass windows blown in,

HORSE CARS OVERTURNED.

And church steeples started. At Rockland, Maine, the roof of the Gas House and many chimneys were destroyed. At Gardiner, Maine, the ice house of the Old Orchard Ice Company was destroyed.

NEW YORK NOTES.

Arthur Doesn't Want a Fight—Held to Answer.

New York, Jan. 27.—The Herald's Washington special says: Blaine's belligerent South American policy has been reversed by President Arthur. Prescott has been instructed not to make the dictatorial demand on Chili which Blaine had ordered.

HELD TO ANSWER.

Hanford, conductor, and Mellins, brakeman of the wrecked New York Central train, were held in bonds of \$5,000 to appear before the Grand Jury.

AN EASTERN WIND.

A furious wind storm has cut off telegraphic communication in the interior of the State. At Syracuse a school house was blown down.

FINANCIAL.

Silver bars, 113 1/2; Money, 3@4; governments, firm; stocks, firm; Western Union, 82; Quicksilver, 12 1/2; Pacific, 43 1/2; Mariposa, 4; Wells, Fargo, 127; New York Central, 131 1/2; Erie, 40 1/2; Panama, 189; Union Pacific, 116 1/2; Bonds, 115 1/2; Central Pacific, 88; Bonds 113 1/2; Sutro, 7.

PRESIDENTIAL APPOINTMENTS.

Booth Likely to be Secretary of the Interior—Sargent's Chances.

New York, January 25th.—The Graphic's Washington correspondent says some friends of the President state that he will make some important appointments next week, chief of which will be two members of the Cabinet, and that Booth is talked of for the Secretaryship of the Interior. Booth's friends claim he is stronger on the Pacific Coast than Sargent. "Those friends" do not say what the President thinks of the proposition and so far as known the consideration of the matter is confined chiefly to persons who

DO NOT HAVE THE MAKING

Of Cabinet officers. Sargent's friends do not seem to be disturbed about the report. They say Miller has reason to be assured that he will be appointed. Logan is said to have expressed confidence that Sargent would not be appointed. Logan endorses Chaffee, but it is believed he stands no chance.

The Longer the Better.

ALBANY, N. Y., Jan. 27.—The deadlock continues. An adjournment is had till Monday.

A Philadelphia Fire.

PHILADELPHIA, Jan. 27.—The loss by fire of the Keystone hub, spoke and wheel works reaches \$150,000; one-third insured.

## THE CONVICTED VILLAIN.

Scoville on Guitau's Egotism—He Will Go to Pieces.

Associated Press Dispatches.]

WASHINGTON, January 27.—Scoville and Warden Crocker have arranged that Guitau is not to be interviewed nor have written communication with the outside world only through Scoville for a week. Scoville says Guitau's egotism will sustain him until he is sentenced and that then he will go to pieces.

A FOULMOUTH HOPE.

Scoville is much depressed, and says he will make his argument for a new trial Saturday, but with little hope of success. "The Judge before whom the appeal must be heard is prejudiced by the force of public opinion, and there is not much doubt but that Guitau will be hanged."

THE ASS'S MANIFESTO.

Guitau sends the press another manifesto calling upon the public to furnish him with means to employ counsel to handle his case before the court in bank.

THE WAY TO DO IT.

Scoville and Warden Crocker had a discussion at the jail yesterday as to the propriety of allowing Guitau's address to go out. Scoville at first opposed it, but finally yielded. He said, as long as the papers will print Guitau's screeds he fancies he has the ear of the press; that he is superior to his counsel and can manage his case entirely in his own way, while it is a matter of fact that he is indebted to his own utterances for yesterday's verdict. Warden Crocker suggested, "If you will not supply him with any more stationery I will see that he does no more writing."

A QUESTION OF JURISDICTION.

CHICAGO, January 27th.—A Times Washington special says: Guitau said to a reporter: "I have not given up hope. I will go to the Court in bank. A question of jurisdiction is the point I rely on for a new trial. An eminent lawyer of Baltimore (Judge Atkinson) has volunteered to appear in my behalf before the court in bank."

BROKEN UP.

"I don't anticipate," said General Crocker to a reporter, "that the prisoner will make any attempt at self-destruction. He is evidently badly broken up. I have noticed for the past ten days that his self-assurance was gradually failing him, but he has an extraordinary amount of hopefulness in his make up. To the very last act in that terrible drama he will continue to hope for something."

GO THUNDERING DOWN.

MILWAUKEE, Jan. 27th.—Some admirers of Judge Porter sent him the following upon hearing of the verdict in Guitau's case: "Verdict of guilt; will go thundering down the ages."

'SAN FRANCISCO BUDGET.

The Chilean—Peruvian Middle—Markets and Stocks.

SAN FRANCISCO, January 27th.—It is authoritatively stated at the Department of State that there is no truth in the report brought by the last mail from South America that the instructions of this Government to Prescott authorize him to demand of the Chilean Government the restoration of Calderon to Peru. He was simply directed to report the condition of affairs and to use his good offices to bring about a peaceful adjustment of the pending difficulties.

THE MARKETS.

Brewing barley higher at \$1.70@1.67 1/2. Wheat weaker; No. 1, \$1.63 1/2. No. 2, \$1.62 1/2@1.63. Chevalier, \$1.65 1/2@1.63 1/2.

A Burlington Blow.

BURLINGTON, Vt., Jan. 27.—A severe gale struck the city this morning, doing great damage in small amounts.

An Unhappy Affair.

BURLINGTON, Iowa, Jan. 27.—J. A. Halpin, of Wappello, Iowa county, this State, fatally shot his wife yesterday and ended his own existence by putting a bullet through his head. Nothing as to the motive is known beyond the fact that the couple had been unhappy together.

Molten Metal.

BURLINGTON, Vt., Jan. 27.—The overturning of a ladle of molten metal in Bun's foundry burned the building and fatally burned four men.

Passengers Coming.

FRESNO, Jan. 17.—The following passengers passed Fresno to-night and will arrive in Los Angeles to-morrow morning: R. Driscoll, wife and child, Texas; Mrs. A. Decker, Arizona; G. P. Rockwood, N. Y.; Mrs. R. M. Wilson, S. F.; Mrs. Gibbons, Sac.; C. M. Strauss, Tucson; Miss Vandyler, Napa; Mrs. Vandyler, do; M. Vandyler, do; M. D. Hyde, S. F.; G. Raymond, do; H. Look, do; A. S. Ferguson, Anaheim; O. M. Potter, S. F.; C. E. Huber, L. A.; W. D. West, Truckee.

After the Gamblers.

CHICAGO, Jan. 26.—The Mayor to-night issued an order closing all gambling houses at 7 o'clock P. M. on Saturdays, and forbidding free lunches and free drinks.

## WASHINGTON.

Probable Passage of Miller's Chinese Immigration Bill.

Guarding the Public Lands—Illinois' Representatives to be Increased—Dakota to be Divided—The Mormons.

Associated Press Dispatches.]

WASHINGTON, January 27.—The Chinese bill reported from the Committee on foreign relations by Senator Miller which is to be called up for action in the Senate next Wednesday was originally framed with such care, and has since been subjected by Miller and his fellow members of the sub-committee to such critical examination of all its provisions down to the minutest details of its phraseology, that the full committee are unanimously of the opinion that it is not susceptible of any further improvement. It will therefore be urged for passage without amendment, and if by any possibility the bill agreed upon by the House Committee should pass the House of Representatives before this measure passes the Senate it is the intention of the Senate Committee to offer their bill as a substitute for the House bill. If, on the other hand, as now seems to be quite certain, the Senate shall take action of the subject in advance of the House of Representatives; the House Committee will recommend the passage of the Senate bill.

GUARDING THE PUBLIC LANDS.

WASHINGTON, Jan. 27.—Senator Van Wyck of Nebraska to-day presented a resolution that the Surveyor-General approve no more applications for surveys under the deposit system and that the Committee on Public Lands investigate abuses occurring under that system.

HOUSE.

The Committee on Census have probably agreed to increase the number of Representatives from the State of Illinois from 20 to 21, which will make the total number of Representatives 320, instead of 319 as proposed by McCook's bill.

INCITING THE REDS.

Townsend of Illinois offered a resolution reciting charges that certain residents of the Territories, known as Mormons, are inciting the Piutes and Navajos, in Arizona, to lawless outbreaks, and calling on the Secretary of the Interior for any information he may have. Adopted.

SEARCHING FOR THE MISSING.

Secretary Hunt has received the following cablegram by post from Yakutsk, Siberia, January 7th, via Irkutsk: Hunt, Secretary of Navy, Washington: Telegram received. Every effort is being made to find the missing men. Melville, with two men and the Russian authorities, go forth. Denenbower and nine men go to the Atlantic seaboard. Report sent by mail.

(Signed) MELVILLE.

DIVISION OF DAKOTA.

The sub-Territorial Committee agreed by a vote of four to one to the bill to divide Dakota into two Territories. Dargo, of New York, cast a negative vote, regarding the bill as a Republican measure, but he admits that the full committee will favorably report it. The House will pass the bill.

GOVERNOR MITCHELL DEAD.

General Robert Mitchell, ex-Governor of New Mexico, died to-day.

PORT WHIPPLE LEFT OUT.

Among the military reservations reported to the House no longer needed by the War Department, is Whipple Barracks, Arizona.

UNPROFITABLE IMMIGRATION.

The report of the Committee on Education and Labor, accompanying the Anti-Chinese bill, reviews the bill in detail and calls attention to the importance of the measure to the Pacific Coast and the unanimity of opinion there, and dwells upon the unprofitable character of Chinese immigration, which is mentioned as partaking of the character of an invasion. Senator Miller reported a bill enforcing the Chinese treaty and will call it up Wednesday.

NO DIFFERENCE.

Miller's Chinese bill does not differ materially from the one reported by the House Committee.

Fashionable Affection.

There is occasionally a good deal of mutuality in people not wanting to see each other. Yesterday a handsomely dressed lady called at a fashionable residence on Galveston avenue. There was the inevitable small boy playing in the front yard.

"Your mother is not in, is she?" asked the visitor.

"Yes, she is in the parlor."

"I thought she always went out about this time in the afternoon."

"I reckon she would have gone out if she had known you was coming; she said so the other day."

Just then the front door opened and the lady of the house appeared. They rushed into each other's arms—smack! smack! yum—yum—yum—how glad I am to see you! Yum—you have not been to see me for an age. I have been wanting to see you so bad! etc.—Galveston News.

A brute in San Diego was fined \$15 the other day for beating his dog.

San Francisco has had 7.41 inches of rain for the season.

The TIMES office is connected with the telephone system of this city, and those desiring to advertise in or subscribe for this paper can do so by this means.

## WILMINGTON HARBOR AND THE SAN DIEGO UNION.

A case of "wasted energy" the San Diego Union calls the attempt of our people to provide the means of ingress and egress for our increasing population and rapidly growing commerce! The remark proves one of two things—either the editor of that paper is stupidly ignorant of our resources and growth, or is wilfully malicious in his effort to belittle the status of a sister county, and prevent its obtaining the government aid it is its privilege to ask for, its right to expect and the duty of the government to grant. And the editor of the Union may plead guilty to either count of our indictment it chooses. We intend to prove him guilty on both counts.

It will be remembered by the old-timers that there was a boom in the southern country of California in 1893. That was a year of abundant rainfall, and everything was favorable for impressing emigrants with the importance of the country. And from about that time Los Angeles may date the growth that is now giving her gigantic proportions. Steadily from that date has she advanced, and that too in spite of many draw-backs. San Diego participated in the boom and drew to herself many people, but unlike Los Angeles, she could not hold them. Men could not live on "harbor and climate" only, and hence there was an exodus nearly as great as that which depopulated Egypt when Moses led forth the children of Israel. Now it is not true that this depopulation extended to this country. On the contrary, hundreds sought our better soil and climate, and are now sharing our prosperity. Not to know this shows a culpable ignorance in one who essays to conduct an organ for the purposes of informing and instructing the public. To show him how ignorant he is of the growth of Los Angeles, while his own county has about stood still or worse, we will invite his perusal of the following figures:

Assessed valuation, 1881.....\$20,021,537  
" 1872.....10,881,164

Increase in 9 years.....\$9,140,393

Here is an increase of over nine millions of dollars in the brief period of nine years. And should the growth be continued that has characterized the months since the assessment of 1881 was made, 1890 will see us ninety millions, and one railroad will not be capable of carrying our products to the interior markets, and ships with our corn, wine and oil, will be laden for all parts of the civilized world.

Again, our growth is shown in the immense increase of exports and imports. We have for comparison the following:

1881, total tons.....143,340  
1885, ".....6,311

Increase, tons.....137,029

For the transportation of this large business it required the arrival at our port of 357 vessels. And the figures give but a poor impression of the bustle and activity, and crowding and jostling of men and wares to do our present volume of business with the limited means at hand, and which cry loudly for more room for the present and more loudly for the means of caring for the immediate future.

We say not to know of this growth in us and need of increased shipping facilities, bespeaks culpable ignorance, and to publish the falsehood that our needs do not require the improvement we seek, when the facts were easily obtainable, is malicious defamation—a remarkable and most vicious case of "wasted energy."

REPRESENTATIVE McCoid of Iowa, has introduced a bill into Congress providing for a re-apportionment of representatives in accordance with the suggestion of Col. Seaton, Superintendent of the Census, which will make several changes in the allotments to the different States. California, which has but four representatives at present, has been allotted six by other bills already introduced, but the McCoid bill will give us but five. Florida will be allowed but one instead of two; Rhode Island one instead of two; Pennsylvania twenty-nine instead of twenty-eight; New York thirty-four instead of thirty-three.

WEDNESDAY the 18th inst. was the thirty-fourth anniversary of the discovery of gold in California.

## IN DOORS AND OUT.

## The Regular Week's Sporting News at Home and Abroad.

A Very Quiet Week Among the Local Sports—At the Galleries—An Old Cannon Ball Found—Notes, etc.

Local sports have been growing about rain for a long time, and now that they have had a good shower they still kick. They have said that game was scarce on account of the dry weather and that birds could not be found unless there was rain. A few hunters have been out since the rain but all returned with empty bags.

The Los Angeles Athletic Club is now under full headway. Since their new quarters have been completed about thirty new members have joined the club. The membership is now about one hundred and twenty and gives promise of being the best and largest in the State.

## FROM ABROAD.

On the 14th inst. Fred Harmon and Geo. Williams ran a one hundred yard race at South Park, Humboldt county, for \$500 a side and gate money. Harmon was the favorite, \$5 to \$1.50 being staked upon him. About 500 people were witnesses of the race. At the start Williams got about six feet ahead, but before seventy-five yards had been covered Harmon pulled him down and passing him broke the string three feet ahead. Considerable money is said to have changed hands upon the race.

Scott, the San Francisco pedestrian, appeared at a benefit to Krohne, in New York, a few weeks ago. Scott started on a two-mile walk with Krohne and Harriman, and won in 17m. 58 1/2 s. Krohne and Harriman making a dead heat for second place.

The Call says: The Los Angeles Athletic Club is in a fair way to success. The Club has a patronage in the best circles, and money is forthcoming to meet all contingencies.

There is some talk of holding a monster outdoor athletic meeting at the Oakland Base-Ball Grounds, about the middle of February. There will be no medals awarded, but in lieu thereof cups and other valuable prizes. The games will be under the auspices of the Olympic Club.

## NOTES.

James Gordon Bennett's new steam yacht is 234 feet long.

Somebody in the East has devised a stove for small yachts, in which a fluid is used, which is said to work frantically.

Rush and Laycock, the Australians, are matched for the championship of the Colonies, at £200 a side.

Trickett is going to England to row with the winner in the Boyd-Hanlan affair. It would be a grand affair if Ross, Trickett, Boyd and Hanlan should all row at one time.

Hanlan has not yet arranged to row a race with Trickett. He expresses his willingness to make the match, and is willing to row at Toronto or Barrie, Ontario, or any other suitable course which will be as fair for one as for the other, for the amount of \$1,000 a side or upward, the race to be rowed about August 1st.

Mr. Hollenbeck is making an excavation on his place across the river, struck a copper ball about four feet below the surface. It weighs about seven pounds and was undoubtedly deposited there long before American artillery came to this country. Where did she come from?

## GARFIELD AS A MASON.

The memorial resolutions on the death of the late President Garfield have been printed by Pentapla Lodge No. 23, F. and A. M. Washington, D. C. A friend gives us an opportunity to peruse the copy received by Pentapla Lodge of this city. From it we extract the following brief Masonic history of the eminent deceased:

"Brother James Abram Garfield was entered in Magnolia Lodge, No. 20, Columbus, Ohio, November 19, 1861. Passed in Magnolia Lodge, No. 20, December 3d, 1861, and raised in Columbus Lodge, No. 30, Columbus, Ohio, (at the request of Magnolia Lodge) November 23d, 1864; officiated with Garrettsville Lodge, No. 246, October 10th, 1866, serving as its Chaplain during the years 1868 and 1869; Charter member of Pentapla Lodge, No. 23, Washington, D. C., May 4th, 1869. He was exalted to the most sublime degree of Royal Arch Mason in Columbia Royal Arch Chapter, No. 1, Washington, D. C., April 18th, 1866. He was constituted a Knight of the Temple in Columbia Commandery, No. 2, K. T. Washington, D. C., May 18th, 1866. He received the degree of Select and Most Excellent Architect in King Solomon's Lodge, No. 2, F. and A. M. Washington, D. C., February 2d, 1871; he received the fourth and fifth degrees A. A. Scottish Rite, May 2d, 1871, and

the fourteenth degree January 2d, 1873, in Mitras Lodge of Perfection, No. 1, Washington, D. C."

Says the memorial of him:

"His career among us, as a Mason, was every way worthy of his exalted character, reflecting additional credit on our ancient and honorable order—an order that has for many successive years enrolled among its active officers and members such Presidents as Washington, Jefferson, Madison, Monroe, Jackson, Harrison, Buchanan, Johnson, and Garfield.

"It was through the labors of Masons now members of Pentapla Lodge, that Brother Garfield rose, by progressive degrees of merit, to membership as a Royal Arch Mason, a Knight Templar, and in the Scottish Rite.

"It was here, before the sacred altars of his Lodge, he was re-impressed, as a Mason, with the sublime truths he had been taught by the lips and seen illustrated by the life of his noble mother, of the being of a God, the immortality of the soul, the resurrection of the body, the practical duties of personal morality, the fraternal duties of genuine benevolence, patriotic love of country, the brotherhood of man, and the hope of eternal life."

And those who know him best, inscribe this as an epitaph upon his tomb:

"A sweeter and a lovelier gentleman, framed in the prodigality of nature, the spacious world cannot again afford."

## NOT CITY FATHERS.

## What Will the City Council Do Next.

The Gas Case Decided by the Supreme Court—The City Without Light—The Electric Tower Needed.

The City Council, the Gas Company, the Mayor, H. T. Hazard—City Attorney—and H. T. Gage have been warring since March, 1881, with Hazard, Gage and the Mayor on one side, and the Gas Company and the Council on the other. The case having been appealed from the lower to the Supreme Court, was decided in that body the other day and when the Council and Superintendent of the Gas Company read this decision they felt that the Mayor and his attorneys were two much for them.

## THE DECISION.

The following notice and extracts from the Court proceedings are from the San Francisco Bulletin, the opinion in full not having as yet appeared:

The Supreme Court has reversed the judgment of the Superior Court of Los Angeles county in the matter of the application of mandamus to compel J. R. Foberman, Mayor of that city, to sign a warrant for \$518.50, drawn by the City Auditor and Clerk of the City Council, in favor of the Los Angeles Gas Company. The Company claimed a contract with the city to furnish the gas for municipal purposes for a stipulated price. The Council allowed the bill, but the Mayor refused to sign it, on the grounds that no contract existed, and because it was not signed by the Mayor, and that it was illegal because the requisite number of members of the Council did not pass it; "that the Mayor is expressly vested with a veto power by Section 2, Article XII, of the charter, which would be nullified if the action of the Council in this matter was sustained." Also "that the authority which the City Council attempted to confer on the Clerk was a vote of only eight members, and was insufficient."

This decision fell like a boom among them.

It will be remembered that last year in February notice was given that bids would be received by the City Council for lighting the streets with gas or any other light, to be lighted twenty-five nights each month. The Los Angeles Gas Company and the agent of the Electric Light Company put in bids. The contract of the gas company was accepted by the Council but not by the Mayor under the legal advice of Hazard and Gage. The contract was to run for two years from date. The Mayor refused not only to sign the contract but subsequently refused to sign the warrants when passed and presented by the Council. The exception in the Council was Moran, Beuchet and Chandelier who always voted no.

## A WRIT OF MANDATE

was issued against the Mayor demanding that he sign the warrant. This brought the case before the courts where it has been ever since, or until the decision of the Supreme Court the other day. The gas company has not received a cent for lighting the city for the past ten months and the chances are that it never will. The Mayor and city attorney have made the fight on the ground that the contract involved too great an expenditure and that the city lights could be furnished for at least \$5,100 less than the Los Angeles Gas Company proposed to furnish it for. Why the City Council have been fighting against the interest of the city is a conundrum. But so called city fathers take strange freaks once and awhile and this one takes the sauce pan for anything of the kind heard of in these parts for the past hundred years. The gas company is out and injured and as the aforesaid

## CITY FATHERS

have been the cause, they should put up about six thousand dollars, or in plain words, pay for the gas burned during the past ten months. This would make them remember the lesson and the "city dads" would pay more attention to the welfare of Los Angeles in the future. It is now more than probable that the Times electric tower will be placed on the hill that is called "Nob." If it is not the citizens will have to take their own lights around in their vest pockets.

## PERSONAL MENTION.

Mr. C. E. Day is confined to his house with the measles. The two children had just recovered from it, when lo and behold! their portly papa was stricken down with it. The next thing in order will be chicken pox, mumps, whooping cough, etc. Never mind, brother Day; there is an end to all things.

Mr. C. E. Harvey of the Continental Oil and Transportation Company had his hat and overcoat stolen from the hat rack of the Wright House on Tuesday last. He found the overcoat at a pawnbroker's, but has not yet recovered the hat. Such sneak thieves should be severely dealt with when caught, and the town is full of them these days.

Mr. T. W. Strohbridge, proprietor of the St. Charles Hotel, has just recovered from a serious attack of bilious and remittent fever, leaving the old gentleman very much thinner.

Mr. F. K. Krantz, editor of the Alameda Encinal, the handsome paper on the coast, with one exception, looked in on the Mirror-Times yesterday.

Mr. E. A. Edwards, of the Continental Oil and Transportation Co., has just received a consignment of those new heating stoves.

Mr. J. M. Davies and son and Miss Alice Davies, were for a drive in San Diego on the steamer Santa yesterday.

Mr. W. Luitweller commences to remove into his new brick carriage and wagon warehouse to-day.

B. Dryfus, wife and children, of Anaheim, were registered at the Cosmopolitan last night.

A heavy snow storm was experienced off Catalina Island last week resulting in the loss of a large number of sheep. The schooner P. F. Wilkey went ashore there and it was with only superhuman efforts that she was saved from becoming a total wreck. The result, however, is nothing worse than the loss of two anchors and part of her sails.

## TRAIN WRECKED.

## An East-Bound Freight Breaks in Two—Two Brakemen Injured.

Yesterday the street was full of rumors of the wrecking of a freight train somewhere east of the San Geronimo mountains. Inquiry failed to get positive information, but such facts as were obtained are given. It is said that an east-bound freight train broke in two and the rear portion ran into the advance section and, more or less, wrecked sixteen cars. Two brakemen were injured. One report says one of them has an arm and a leg broken and the injuries of the other are quite severe, but we cannot learn of what they consist. The accident occurred at or near Cabazon, the second station after turning the summit of the San Geronimo mountain, Banning being the first. Several accidents have occurred in the vicinity of that place. The grade is there very heavy, and when a train once gets the better of the brakemen to stop is almost an impossibility.

The Southern Overland, due at 4:45, did not arrive, being doubtless detained by the blockade of the track by this wreck. The telephone reported the train to arrive probably about midnight.

The inability to get definite information of this wreck is owing to the fact that the railroad people are reticent about such events. But it would be very gratifying to the press and would relieve public anxiety were the Railroad management to bulletin briefly every accident and give the names of the injured and the extent of damages. The wrecked train was under the charge of Conductor George Nulton, a capable and faithful officer.

LATER.—The express train arrived at twelve o'clock last night, bringing one of the brakemen named Johnson, who it is believed is fatally injured. There were two others bruised up, but not seriously. No one else was injured. It was almost impossible to get a bunk for the injured man, as the passengers refused to give up their bunks.

## ABOUT TOWN

See notice of rooms and board in Wants and For Sale column.

The Eagle Corps had a street parade last night. The boys made a fine appearance. San Diego has had a total rainfall for the season of 5.26 inches. Lucky San Diego!

D. Nagle has returned from San Francisco and will open an immense stock of boots and shoes in a day or two.

Mr. Mueller is having plans prepared for two more fine dwelling houses, one of them to be built on Temple street.

Another family from Wellington, Sumner county, Kansas, arrived yesterday and will locate in this vicinity permanently.

Mr. Kendall recently purchased the Laughed place, in Vernon District, and will build a large, comfortable house there shortly.

The Athletic Club held their regular practice meeting last evening, the members present doing their level best to develop muscle.

The infant child of Mrs. Peterson, a lady here temporarily from Bodie for her health, died last Thursday and was buried yesterday afternoon.

C. Pollogrin was tried yesterday before Judge Adams for making a disturbance in a house of ill fame. He was fined twelve dollars, which he paid.

Two large, new boilers have just been placed in position at Lankershim's mill, Mr. M. W. Child is building a sheet-iron shed at the mills also.

There are many gentlemen of means in the city from Colorado and Nebraska, making inquiries with a view of investing largely in business property.

Mr. Robert More, of this city, will commence buying in two or three days a fine residence about 200 feet, on Charity street, between Temple and Court streets.

The Valentine season is at hand and the bookseller's windows are already filled with the gaudy illustrations, greatly to the delight of the average small boy.

The old White House is being re-organized and refitted inside by Mr. James Corwin, previous to occupancy by Mr. Smith, of the Commercial street Coffee House.

A number of citizens have expressed a desire to have Second street opened to Los Angeles street. It would certainly be a fine accommodation to the traveling public.

Our gymnastic, but not pugilistic, friend, Tom Strohm, sells first-class groceries at bedrock prices, and will deliver the same to any part of the city. Read his announcement in "New To-Day," and give him a call.

It is rumored that Mr. T. D. Mott contemplates selling one-half of his property on Main street nearly opposite the Cathedral, and building a business building on the other half.

It is reported that a gentleman recently arrived from Colorado, has taken upon himself to build ten tenement houses in this city, at once. The more the better, they are scarce enough.

Mr. J. W. Clark recently sold his place in the southern portion of the city to an Arizona miner for \$4,500, and will build a fine residence on a forty-acre tract he owns in that vicinity.

Dr. T. C. Kiger, Homoeopathist, from Marietta, Ohio, has opened an office on Main street, between the St. Charles and Grand Central Hotels, up stairs. See card in "New To-Day."

Mr. Borick, Janitor of Vernon district, says the water ditches are full to overflowing and the settlers correspondingly happy. Nearly everybody is busy plowing and sowing, satisfied with the outlook.

The wind of last week prostrated a large century plant in the garden of the Sierra Madre, which was just in bloom. The stem was forty feet in height and grew in ninety days—five and one-third inches per day.

Major Nulton, recently from Fresno county, has purchased the Williams property on Jefferson street for \$12,500, and will shortly build a commodious residence on the premises. He is now making extensive improvements on the property.

Mr. E. Reinert's Pioneer Coopers, on First street, agent of our important manufacturing industries. New and improved machinery will shortly be added, which will greatly facilitate the work. Mr. Reinert expects a car load of shoeks in every day.

The twenty-seven Chinese who were arrested yesterday for visiting a room where "tap" was being played, were arraigned before Judge Adams. Eighteen pleaded guilty and were fined \$15 each, which they paid. The other seven were discharged.

Mr. Duncan Campbell, of Inyo county, lately bought a portion of Mrs. Redding's property—sixteen acres in the southern suburbs of the city—and will come here to locate permanently in a short time. He contemplates improving the property and will reorganize and enlarge the house.

## HATCHET MEN.

## Chinese Criminals and Their Secret Orders.

The Secret of the Kung Tong and What They Have Been Doing in California.

It had formerly been the practice of the bad element in Chee Kung Tong to levy blackmail on the keepers and inmates of the houses of ill fame. Such proceedings do not appear to have been sanctioned by the Society, but nevertheless it decided, when complaint was made, not to interfere with the individual action of any of its members. The blackmailing was consequently continued to the undisguised satisfaction and profit of the highbinders, until finally the burden thus imposed became so onerous to the keepers of these houses that they, in order to secure protection to themselves and their

Joined Chee Kung Tong. By the laws of the society the needed protection was thus gained and the highbinders were forbidden to molest the Chinese courtizans on pain of the displeasure and severe punishment of the Society.

For a time all went well, but soon the criminal element obtained complete control of Chee Kung Tong. For the purpose of restoring its lost revenue, it levied an official tribute upon the keepers of houses of ill repute, who had so recently asked protection, and a liberal sum thus exacted was reluctantly yet regularly paid into the treasury of the Society. The merchants and the better classes of the Chee Kung Tong withdrew from the Society, but not wishing to sever their connections with the order.

PREMASONRY.

Joined Toak Kung Tong, which was established at about this time. In consequence of this secession Chee Kung Tong lost most of its former prestige and power and a bitter rivalry was engendered between the two societies, which culminated in a suit for an injunction by Chee Kung Tong to restrain Toak Kung Tong from maintaining its organization on the grounds that it was illegal for two such societies to exist in the same city and that Chee Kung Tong was the original and only legal organization in this country. The injunction was refused by the Court, and both societies have since continued in operation. The present president of Chee Kung Tong, Chin Geng Sam, President of Chee Tong, alias Indian Foy, business manager, and a Board of Directors, who manage all the more important business of the society. Toak Kung Tong is considered to be comparatively harmless in its character, while Chee Kung Tong's

has been alarmingly increasing during the past three years and it is now regarded by the detectives, police and special officers on duty in Chinatown, San Francisco, who are more or less familiar with mysterious movements, as a society of "Chinese Molly Maguires." The details of the organization and its crafty modes of action are well worthy of contemplation in the brain of the wisest and most demagogical Celestial of the Flowery Kingdom and would reflect intellectual credit upon the illustrious Confucius himself. This subject will be continued in next Tuesday's issue and will be found to be very interesting.

## UNKNOWN.

The Death of an Insane Man at the Napa Asylum.

The following note was received by Sheriff Rowland yesterday from the Napa Insane Asylum:

"We have to report the death of John Ashdown, committed from Los Angeles county February 8, 1881. He died here January 20th, of organic disease of the brain. We have had no correspondence about him and have to notify you."

The Sheriff's office has no record of the deceased and it is not known who he was.

## STEAMER ANCON.

This steamer arrived on time with the regularity of clock-work yesterday morning, and sailed in the afternoon for San Diego, carrying the following list of passengers:

## A FIGHT.

## Two Prominent Lawyers Have a Dispute in Court.

Judge Adams had a lively day yesterday. That is, the attorneys got tangled up and made the scene exciting and lively for the Court during the space of three minutes.

It will be remembered by the readers of the TIMES that some thirty Chinamen were arrested for playing "tan," a week or two ago. Well, one of these aggravating cases was called, and two prominent members of the legal profession appeared, one for the State and one for the poor Chinamen. The State was too utterly too, too. He remembered that several similar cases had been lost, so he drew up another complaint, more binding, and as soon as the Court called "time," he moved to dismiss the Chinamen. The defendant saw his chance and requested his heathen clients to depart to the bosoms of their respective families. The State objected, the officers arrested the whole gang, the defendant of the heathens made a remark which brought the State to his feet and the fight began. In a few minutes fight the State came out victorious.

## FOUR DAYS GO-AS-YOU-PLEASE.

The Madame Du Pre Walking-Match Started.

At eight o'clock last night the four day's walking match began. Madame Du Pre and Fish took the track and made the first mile in eleven minutes, the Madame leading by about ten feet. At nine o'clock her son Frank, a boy of about sixteen years of age came out for an exhibition walk. He is a good walker for a boy. He made his mile in eight minutes. Prof. Savarjet was trotted out and kept the audience in roars of laughter for several hours. At a quarter to twelve this morning the score stood 18 miles to each contestant.
